

Naveed Ilyas

Frontend Engineer (React.js / Next.js)

Lahore, Pakistan | naveedilyas115@gmail.com | +92 303 4793698 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Frontend Engineer with 3+ years of experience building production React.js and Next.js applications for complex, multi-role products. Skilled in JavaScript, TypeScript, component architecture, REST API integration, and real-time UI with WebSockets and Socket.IO. Experienced owning features end-to-end, from requirements through polished, release-ready delivery, while collaborating with designers and backend engineers and improving performance, reliability, and maintainability across the frontend.

CORE SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend Frameworks & Libraries: React.js, Next.js, Redux Toolkit, Zustand, Context API, TanStack Query (React Query)

UI & Styling: Tailwind CSS, Material UI (MUI), Shadcn UI, Responsive Design, Framer Motion

APIs & Real-Time: REST APIs, Axios, WebSockets, Socket.IO

Backend & Databases: Node.js, Express.js, MongoDB, MySQL, Prisma

Tools & Platforms: Git, GitHub, Postman, Vercel, Stripe, NextAuth

Other: Internationalization (i18next, RTL support), State Management, Performance Optimization, Code Splitting, Lazy Loading, Role-Based Access Control (RBAC)

PROFESSIONAL EXPERIENCE

Frontend Engineer, Tekxai

Jun 2025 - Present

Lahore, Pakistan

- Built production React.js and Next.js features from UI development to API integration and delivery.
- Developed reusable TypeScript components and multi-role workflows using TanStack Query and Zustand.
- Improved responsive UI performance through optimized rendering, loading states, and error handling.

Frontend Developer, BuildAi360

Jan 2023 - Jun 2025

Lahore, Pakistan

- Built responsive React.js and Next.js applications for dashboards and business workflows.
- Integrated REST APIs and Socket.IO with Redux Toolkit for real-time application experiences.
- Improved performance by reducing unnecessary re-renders and optimizing data-heavy components.

PROJECTS

Pixora - AI Photo Editor, Tekxai

Next.js, React.js, TypeScript, Tailwind CSS, NextAuth, Prisma, MongoDB, ImageKit, Stripe, Framer Motion

- Built an AI-powered photo editor using Next.js with Google OAuth authentication and Prisma/MongoDB usage tracking.
- Integrated ImageKit for signed file uploads and AI-driven image transformations with free-plan usage limits.
- Implemented Stripe Checkout and webhooks to support Free and Pro subscription plans with automated quota enforcement.

AI SpEd Insight Platform, Tekxai

Next.js, React.js, TypeScript, TanStack Query, Tailwind CSS, Zustand, WebSockets, Axios

- Owned frontend delivery for a multi-role Texas Special Education platform, implementing RBAC, protected routing, and role-specific dashboards across district and Super Admin workflows.
- Built end-to-end IEP workflows with document upload, AI extraction, HB-2 intensity scoring, Needs Review resolution, and PEIMS ready exports using TanStack Query and WebSockets.

Loadout Marketplace Platform, Tekxai

React.js, TypeScript, Vite, TanStack Query, Tailwind CSS, Zustand, Socket.IO, Axios

- Delivered a multi-role marketplace application with separate user and admin experiences, role-based access control, and protected routes for buyers, sellers, and operators.
- Integrated REST APIs with Socket.IO-powered chat and notifications to keep marketplace interactions responsive and synchronized across sessions.

DealLink Bilingual Portal, Tekxai

React.js, Redux Toolkit, Tailwind CSS, i18next

- Built a bilingual English/Arabic web portal with full right-to-left (RTL) support and shared component patterns that stayed consistent across locales and screen sizes.
- Structured reusable UI and state management patterns so language switching did not break layout, navigation, or form behavior.

Construction Management System, BuildAi360

React.js, Redux Toolkit, JavaScript

- Developed dashboards, reporting views, and data visualization surfaces used by teams to monitor project progress and operational metrics.
- Integrated REST APIs and reduced unnecessary re-renders to keep data-heavy screens responsive under frequent updates.

EDUCATION

Bachelor of Science in Computer Science (BSCS), COMSATS University Islamabad, Vehari Campus *Feb 2018 - Feb 2022*

CURRENTLY LEARNING

Node.js, Express.js, MongoDB, PostgreSQL, Prisma, and Next.js backend architecture - expanding toward stronger full-stack delivery.
